TIA Hotel, Hurghada

Dear friends and colleagues,

It is with great pleasure that we welcome you all to the 16<sup>th</sup> Scientific and social gathering conference of the Egyptian Hepato-Pancreato-Biliary Society (EHPB)

Amongst the major challenges facing the HPB surgeon and internist nowadays is the rapid non-precedented revolution in technology together with the multi-disciplinary approach in the management of most HPB diseases.

In our conference we will try to introduce technological innovations and ensure the presence of experts in hepatology, oncology, basic sciences and interventional radiology and updated endoscopic and laparoscopic trends.

As you all well know our meeting always emphasizes the social side, so all family members can mix work with pleasure.

In this event, we welcome our international guests from distinguished centers all over the world.
